PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of web development experience building responsive websites and applications using React.js, Next.js, JavaScript and TypeScript. Experienced in developing reusable UI components, interactive interfaces, dashboard applications and API-integrated workflows, with hands-on experience in booking and e-commerce platforms.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, GSAP, shadcn/ui

State & API Integration: REST APIs, Axios, React Router

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, Firebase

Tools & Deployment: Git, GitHub, Postman, Chrome DevTools, Hostinger VPS, Nginx, PM2, GitHub Actions, CI/CD

CMS: WordPress, WooCommerce

WORK EXPERIENCE

Frontend Developer — ADVOLVE *Jan 2024 – Present*

- Develop and maintain responsive websites and web application interfaces using React.js, Next.js, JavaScript and TypeScript.
- Build reusable UI components, responsive page sections, animations and interactions for the Advolve website in collaboration with the UI designer.
- Develop booking-related interfaces and user/admin dashboard screens for the Villa Gulposh booking system.
- Implement client-requested website updates, including Shyft, and integrate frontend features with backend APIs.
- Handle responsive checks, debugging, feature testing and project handovers in collaboration with the team.

Web Developer Intern — ADVOLVE *Jul 2023 – Jan 2024*

- Developed and updated WordPress websites and landing pages using HTML, CSS and JavaScript.
- Implemented responsive layout improvements, website maintenance and client-requested design changes.

SELECTED PROJECTS

Karabook — Property Discovery & Booking Platform *Freelance Project*

Website: karabook.in

- Developed responsive interfaces across three applications: traveller, owner and admin.
- Built frontend experiences for property discovery, booking flows, availability and role-specific dashboards.
- Integrated frontend workflows with backend APIs, including shared-account and role-based user journeys.
- Worked on payment-related frontend integration and booking workflows.

Woodan — E-commerce Platform *Freelance Project*

Website: woodan.in

- Developed responsive e-commerce storefront and admin interfaces for product browsing, detail pages, catalogue and order management.
- Contributed to product catalogue setup and uploading products.
- Collaborated on gifting website competitor analysis and coordinated product image arrangement and WebP conversion with a team member.
- Delivered the project within a 1.5-month timeline.

EDUCATION

Master of Computer Science (MCS) *May 2025*

College of Computer Science and Information Technology

Bachelor of Computer Science (BCS) *Jun 2023*

College of Computer Science and Information Technology
